

Dear sir or madam, I respectfully ask that you reject NAB's petition 04-160. I beleive the proposal infringes upon our freedom of choice. We, as Americans, are promised the Freedom Of Choice in the Bill Of Rights. Therefore we should be able to choose how and when we receive weather and traffic updates on the radio. I beleive this will only be the first step by the NAB to stop XM satellite radio services permanently. Again I respectfully urge you to reject petition 04-160.

Thank You

Scott Romanski
